

WE'LL BLOCKADE AT BÜCHEL

11/12 August 2013

(adapted from the Greenham silos song, written by Rebecca Johnson, 1983)

We'll face them with nonviolence; we'll face them with song
we'll blockade their bases, link arms and be strong
we don't want their weapons and we don't want their wars
so we'll blockade at Büchel
we'll blockade at Faslane,
we'll blockade at Burghfield
till peace is ours.

They say they need Trident, tacnukes and the rest
they say for deterrence these bombs are the best
Flatten Moscow like Hiroshima.... or maybe Tehran?
Come stop them at Büchel
we'll stop them at Burghfield
we'll make them see sense,
All these bombs should be banned

Imagine them used with a great searing flash
Death, dust and radiation – our environment would crash
We don't want to die and we don't want to kill
So get the bombs out of Büchel,
Get the nukes out of NATO
Get a nuclear ban treaty
We can and we will!

We'll sit in the road and we'll block all the gates
we'll stop this Cold War nonsense and deployments of hate
Together we'll sing and together we'll stand
And we'll blockade at Büchel
we'll blockade at Burghfield
Disarm nuclear NATO
These bombs must be banned.

It's time to start making our world nuclear free
build a future for our children, be the change we want to see
A nuclear ban treaty won't take very long
So campaign in Berlin
and campaign in London
and campaign round the world
for Together we're strong

We'll face them with nonviolence; we'll face them with song
we'll blockade their bases, link arms and be strong
we can stop this madness and we must do it now
so we'll blockade at Büchel
we'll blockade at Faslane,
we'll blockade at Burghfield
Start peace-building now.
Yes we'll blockade together, build peace here and now!
